⑤

⑥

- ① Put on the plastic cap on the wire.
- ② Mount cable clip on the wire.
- ③ Make the loop in the end of the wire rope and fix the clamp.
- ④ Place the snap hook in the loop of wire rope.
- ⑤ Place the eye bolt in the plastic cable clip.
- ⑥ Fix loudspeaker on the ceiling and lift the dome to hide the mounting hardware.
Gently tighten up the screw in a dome to prevent slip.

Please pay attention: the original eye bolt is suitable for mounting on the wood only.
If loudspeakers are mounted on the other base, it is required to replace the eye bolt to corresponding.
Mount loudspeaker on the reliable base only.
