GammaPix 29B1X1BF

Indoor rental 2,9 mm LED screen, 50x50cm tile with full black LEDs

ORDER CODE: GAMMAX29B1X1BF

GammaPix 29B is a rental LED screen for indoor use with a 2,9 mm pixel pitch, designed to meet requirements for corporate, studio and install applications.

The mechanical design of the tiles has been conceived to allow fast single person installation with automatic lock design and extra safety & handling features such as scratch protection of the lamp face and bottom protection.

GammaPix 29B tiles have on board curve mechanics allowing both concave and convex precise installation of +10° / -10° each tile and the weight has been reduced down to 5.8 kg per panels (23,2 kg per sgm).

The on-board electronics include the latest generation of Novastar A5s receiver card and refresh rate up to 3.840 Hz.

MAIN FEATURES

- Single person installation, auto lock design and scratch protection
