

B-SmarHive | Data Sheet

Smart Charging and Configuration Cradle

Highlights:

- Desktop and rack-mount configuration
- Scalable deployments
- Overcharging protection
- Secured magnetic attachment for B-RTX devices
- SmartHive Manager software

OVERVIEW

The B-SmarHive charging cradle by Bettetear provides a seamless and efficient solution for charging and managing B-RTX devices. Featuring an elegant design and advanced features, the B-SmarHive simplifies device handling and optimizes workflow efficiency.

KEY FEATURES

1. SCALABLE DEPLOYMENT

Each B-SmarHive features 10 smart charging slots. Multiple units can be easily chained via Ethernet and managed simultaneously through the SmarHive Manager software.

2. DUAL MOUNTING MODE

The B-SmarHive can be used in both desktop and rack-mount modes.

3. CENTRALIZED MANAGEMENT

The B-SmarHive Manager software streamlines the management of your B-RTX devices, allowing you to efficiently control device configurations and monitor their charging status in real-time.

4. MAGNETIC SECURE DOCKING

Magnetic charging slots ensure smooth and secure insertion and removal of B-RTX devices.

5. OVERCHARGING PROTECTION

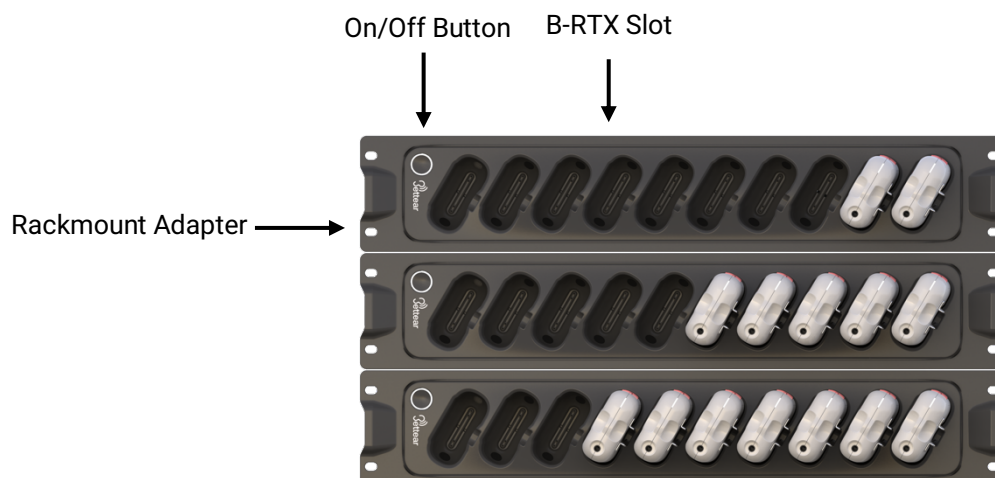

To ensure the long lifespan of B-RTX batteries, the B-SmarHive is equipped with a unique protection circuit that monitors battery levels in real-time and automatically stops or resumes charging as needed.

MANAGEMENT SOFTWARE

The SmarHive Manager software is designed to seamlessly monitor and control connected B-RTX devices:

1. Monitor battery levels in real-time
2. Push firmware updates to multiple devices simultaneously
3. Create and upload 'Tour Configuration' files to B-RTX devices, including audio files in multiple languages and NFC/Beacon logic
4. Modify B-RTX configurations, such as default stream settings, broadcast names and passcodes, background colors and more
5. Support 'List view' and 'Slot view' for intuitive device management
6. Programmable scene buttons to apply common configurations with a single tap

CONTROLS

TYPICAL USE CASES

- Cultural Venues: Theaters, cinemas, music venues
- Guided Tours: Museums, visitor centers and exhibitions
- Silent Environment: Sports bars, waiting areas, "quiet" airports
- Secure Listening: Courtrooms, meeting rooms, banks and more
