D-SPLIT

The perfect accompaniment to DMXIS

Instead of having to make them all fit within a single daisy chain, each of the four outputs from the D-SPLIT can be the start of its own chain, and multiple D-SPLITS can be linked together if needed.

► Features

- Lightweight and portable
- 1 input and 4 outputs, all optically isolated
- DMX512-1990 compatible
- Control up to 512 channels
- LED indicators show power and DMX output
- External 7V power supply
- D-Split has two 5 pin and two 3 pin outputs for greater flexibility
- D-Split (5 PIN) has four 5 pin outputs

► Functional Specifications

- DMX output 5 pin XLR & 3 pin XLR
- All four may be used simultaneously, or any combination
- 1000V isolation between input and output, and between any individual output receptacles
- This is to protect your console from surges on DMX line, and also keep any stray voltage from crossing to other DMX chains

Dimensions

H53mm / W115mm / D85mm
H2.08' / W4.5' / D3.4'

PART NUMBERS

70575 - D-SPLIT all 5pin out

70572 - D-SPLIT 3pin and 5pin out mix

► Applications

- Small theaters
- Solo musicians / bands
- Djs
- Places of worship
- Churches...
