

230V Neon led strip light

1:Specifications:		2:pictures
Items	Parameter	
Item	230V NLR16 Neon led strip light	
Power	10W/M	
Input Voltage	AC230V	
LED Source	2835SMD LEDs	
LED quantity	120LEDs /meter	
Roll of length	50meter	
Size	Dia:16mm	
Details	every 1M cuttable	
IP Rate	IP65	
Beam Angle	120°	
Working Environment	Working temperature:-40°C~+55°C	
	Working humidity:10%-90%	
Led Life	>50,000 hours	
Warranty	2 years	
Certificates	CE/RoHS	

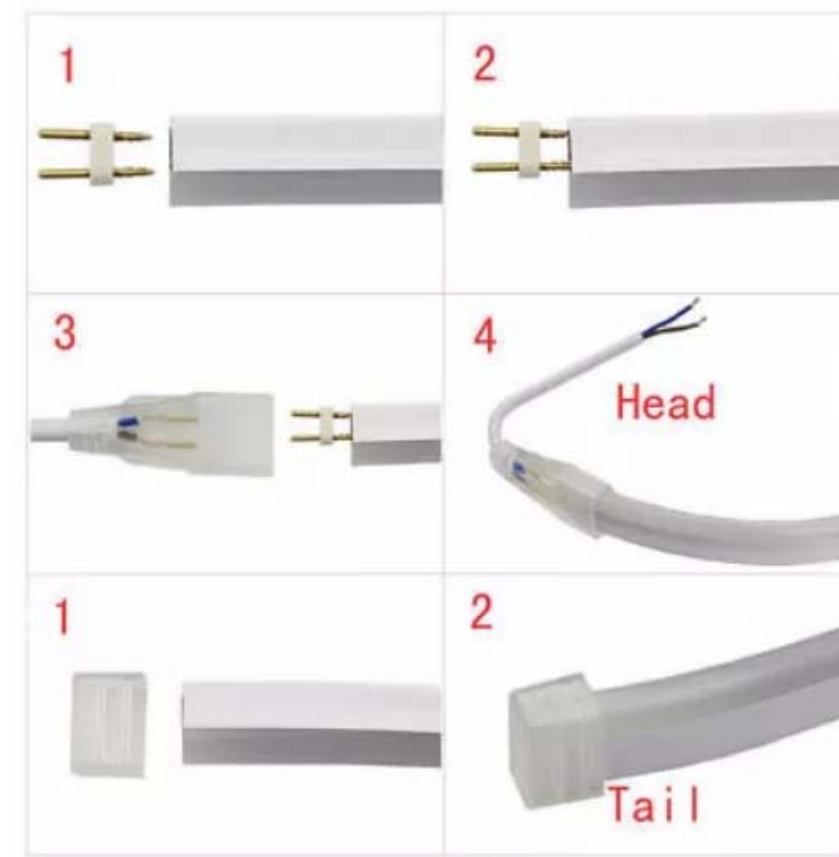

3:230V NLR16 Neon led strip light wavelength(nm/K)

Red	Green	Blue	Yellow	Warm white	Nature white	Cool white
619-635	512-528	463-475	584-595	2700-3300	4000-4500	5500-6500

4:Working Mode of 230V NLR16 Neon led strip light

100% Brightness or 10-100% PWM Dimmable with controller.

5:installing:

6:Application:

Architectural decorative lighting, Window display lighting, Amusement park or theater, Emergency lighting, Stairway accent lighting, Ad signs, light boxes, Back lighting for signage letters, Swimming pools and fountains, Swimming pools and fountains, Holiday decorative lighting, Car decorative lighting, Night club lighting
