

2.4GHz Panel 12 dBi Antenna

12 dBi Panel Antenna with 2.4GHz Frequency

This panel antenna delivers extended access point range in a single floor environment ideally positioned in the corner of a building. It functions from point-to-point so that you can wirelessly connect LANs between the buildings in a campus-type environment. It provides multiform transmission when placed on a ceiling, as the higher power output extends the range through typical flooring materials

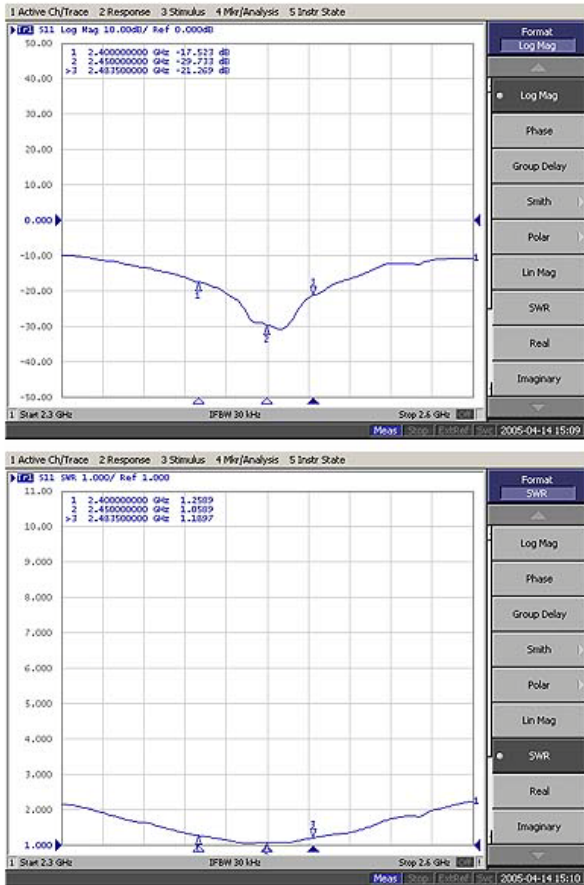

Specification:

Technical Information	
Item No.	Outdoor 12 panel directional 12 dBi
Frequency	2400-2483 MHz
Gain	12dBi
Polarization	Vertical
Beamwidth degree	30 x 30 deg
VSWR	$\leq 1.5:1$
Impedance	50 Ω
Dimensions	
Size	L275 x W90 x H30 mm
Weight	580 g
Connector	N - Type / Female

VSWR
